Around
the Square

The head on the story was "WESTERNERS CAN READ" and it went on to say:

"Eyebrows in the publishing industry shot sky-high this month as results of a survey of book sales in the U. S. showed that Los Angeles is in second place for the nation ahead of Boston, Philadelphia, Chicago.

Here are the five top cities showing percentages of total U. S. book sales each accounts for:

1—New York, 27 per cent; 2—Los Angeles, 10 per cent; 3—Chicago, 8.6 per cent; 4—Boston, 7 per cent and 5—Philadelphia, 6.3 per cent."

Reminds us of the Bostonian reporting a wedding to a friend—"the groom was a Westerner, m'dear. You know, uncomfortable in a white shirt."

Following some very juvenile mischief, the perpetrators were brought before Judge Mead who found them liable for damages and advised that they go to work and bring the money in to court.

As a result the Judge has worked overtime making out receipts for quarters and four bit pieces—but he has gained a wide circle of acquaintances.

A few days ago he was out working in the yard as one of the new-found friends passed by with a buddy.

"Hello, Judge," called the friend.

"Hey, I know him," said the buddy.

"Yeah, but I know him better."

"You should know him better!"

J. J. Ricarde surely has builded his house upon a rock—he has had to take unto himself an air-hammer in order to indent a garage belowdecks.

Last week was the time for all good men to come to the aid of the water department.

to get water meters and bills out before the went in, every 1947 vehicle that was out of the city was out of the city.

CITY HIT BY TOTAL TAX RATE OF \$6.53

Cut Water Use Or Face 'Big Stick'

City Officials Say Drouth Threat Calls For Drastic Curbs, Seek Voluntary Aid

Threat of police action to conserve water in Sierra Madre was thrown out as bait this week by Water Superintendent Howard W. Brod. He hoped to catch the attention of every water user—and, more important, every water meter—in the city.

He said that if water is not stringently conserved, there just won't be enough. And if it isn't stringently conserved, the council would have to pass a law. And a law against wasting water wouldn't be any good if it didn't have teeth that the police department could use.

Brod said, "As Water Superintendent of Sierra Madre, it is my unpleasant duty to inform the people that the water supply (here) is critically deficient.

"The sooner we realize and appreciate that a serious water supply deficiency exists and the sooner we individually accept the responsibility of eliminating waste, the sooner will our water supply return to a normal condition."

The courts have determined the amount of water that Sierra Madre can take out of the Raymond Basin in a single year—technically speaking, 1264 acre feet. The water the city pushes through its pumps is metered and watched by a watermaster.

CITY DUMP CRISIS TO BRING RUBBISH 'TAX'

Council to be Asked to Contract for Collections If Dump Remains Closed

BY ARTHUR HEWITT

Possibility of an increased rubbish disposal "tax" via water bills arose this week as city officials sought means of meeting a crisis brought about by the closing of the city dump.

To clear the city of "burnables" that cannot be burned here, City Engineer Howard W. Brod proposed that the City Council take action on a contract with Rubbishman Ben Kazarian. Under it, Kazarian's trucks and crews would pick up combustible rubbish, haul it to the new dump near Duarte and bury it.

Cost to the city, arrived at after negotiations carried on between Brod and Kazarian's representatives, would be 50 cents per month per residential water meter and \$1.25 for each business water connection.

These amounts would not necessarily be tacked onto the existing "garbage tax" attached to water bills. The fee now charged is 50 cents a month for home owners.

There are now about 2,200 water connections in the city. Thus, the charge to the city would be about \$13,200 a year. A private contractor now collects tin cans and garbage. The cost is \$4,200 a year—about 15 cents a month for each residence.

Rubbish disposal costs considerably more. The 1948-49 city budget set up \$12,050 for this, an amount that would nearly cover the cost of a contract with a private firm.

Kazarian's agents had proposed that the cost be placed at 60 cents a month for each residence, but Brod, during negotiations, brought this down to the quoted figure of 50 cents.

Brod pointed out that to make the haul to Duarte, about 14 miles away, the city would have to purchase trucks with a large load capacity.

Proclamation
Declaring Week of September 12, 1948
Registration Week

WHEREAS, the General Election to be held on Tuesday, November 12, 1948, is of great importance and it is incumbent upon all of us to exercise our right and the privilege of voting in such General Election.

NOW, THEREFORE, as Mayor of the City of Sierra Madre, I proclaim the week of September 12, 1948, as "REGISTRATION WEEK" and earnestly urge all citizens of the City of Sierra Madre who were not registered and qualified to vote at the primary election last June, to qualify under the provisions of the California Elections Code by registering during such week.

WITNESS my hand and the seal of the City of Sierra Madre this second day of September, 1948.

J. MILTON STEINBERGER,

Mayor

POSTAL
RECEIPTS
SOAR

Postal receipts for the month of August 1948, which were \$4,149.23, show an increase of \$688.69 over August 1947, announced Postmaster Eddie Robertson. Receipts last year amounted to \$3,460.54.

- CHAMBER OF COMMERCE
- All members of the
- Chamber of Commerce are
- urged to attend the Board
- of Directors meeting next
- Monday evening, September 13th, in the City Hall.

Home From Hospital

Adam Bernhardt, 25½ North Sunnyside, is home and recovering from a serious operation he underwent two weeks ago at St. Luke Hospital.

MACHINES BOON
TO S. M. BANK

Beginning next Monday, September 13th the Bank of Sierra Madre will provide a new service in the form of teller's machines which will eliminate passbooks for checking account customers.

It is the expectation of the officers of the bank that work will be speeded up at the teller's windows thus relieving pressure during peak periods and will supply the customers with a new and better form of receipt which will afford more protection.

White
Elephants?
Bring 'em

Have you a little white elephant in your home? If you have, the Central Veterans' Committee can use it for the auction sale. The big day is only a little over a week away. September 18th will see the old town turned over to its first Veterans' Day. The auction with its double auction blocks will be a riot of fun.

The committee has arranged convenient stations all over town where you may bring any saleable articles:

Pollock's Market, 35 N. Baldwin; Pickett's Service Station, E. Sierra Madre Blvd.; Pratts Market, W. Sierra Madre Blvd. at Lima and George Ward, 52 E. Montecito; The Old Adobe, E. Montecito, or ask any member of the American Legion, Veterans of Foreign Wars or their auxiliaries.

Keep in mind that all profits from the sale and the Veterans' Day are to be used for hospital and rehabilitation work among Veterans.

The day is planned for fun in the American way for the benefit of Americans.

Entertainer
Secured for
Lions Dinner

Albert Morgan, program chairman of the Lions Club, secured Axel Christensen, humorist and pianist of Los Angeles, to present one of his famous programs at the regular Lions dinner last Thursday night at the Woman's Club.

Mr. Christensen, a professional entertainer, appeared by courtesy of his friend, Mr. Morgan, and the evening proved to be a summer high-light.

Advised to
File Under
State Law

A special meeting of the Planning Commission, scheduled last week to consider the plans of Harold Spears for division of a tract on East Grandview, was cancelled when the City Attorney ruled that Spears' project was too large to come under the Sierra Madre Subdivision Ordinance. Spears was advised to file under the state statute, according to Commission Chairman Frank Spencer.

Next regular meeting of the Commission will be on Thursday, Sept. 23, 8 p.m., in the City Hall. For the past several months, the group's meetings have been the liveliest show in town and there is reason to expect more of the same as the set-back (or front yard) battle goes on and on.

First Grade
Teacher
Resigns

A telegram of resignation from Mrs. Helen M. Colbert was received Friday by Sierra Madre Grammar School Superintendent Charles Skutt.

The reason for Mrs. Colbert's resignation is expected soon by mail and as yet there has been no one appointed to succeed her. She has been teaching first grade here for the past two years.

Mrs. Colbert and husband, Robert Colbert, have been visiting her parents in Hartford, Conn., for the past three months and it is probable they will remain some time.

R. A. Hawks Personnel Rush
Manufacture for Device
Used in Polio Treatment

Citizens of Sierra Madre will be interested to learn that mechanical components of an improved device for the treatment of polio were fabricated by employees of the R. A. Hawks Company.

News releases in Los Angeles papers last Saturday describe the device as administering oxygen at positive pressure to patients in iron lungs. The advantage of this type of therapy reduces the formation of mucus and respiratory complications.

The inventor of the device, V. Ray Bennett, was formerly employed by the R. A. Hawks Company and for the past four years has been retained as consulting engineer developing oxygen equipment for the Air Forces. Clinical applications which resulted from Air Forces

Overall Rate Goes
Up 15½ Cents For
1948-49 Tax BillsCOUNTY RATE UP 26½ CENTS, BUT
OTHER TAXING AGENCIES TAKE CUTS

By ARTHUR HEWITT

Sierra Madre this week got advance warning of tax bills yet to come.

Property owners here, beginning next November, will be hit to the tune of \$6.5268 for each \$100 assessed valuation.

Last year the total tax rate amounted to \$6.3722. The increase over the 1947-48 rate is 15½ cents per \$100 valuation. The increase is represented entirely by a jump in the county tax rate finally adopted last week by the Board of Supervisors after two days of squabbling which saw an exhibition of the fancy little game called "political footie-footie."

The composite rate is made up of the rates established separately by the city, the county, the school districts, the County Flood Control District and County Sanitation District No. 15.

This total rate will mean that a home owner with an assessed valuation of \$2000 on his property will have to pay a tax bill of \$130.54.

To figure your own tax bill: Take your 1948-49 assessed valuation (available at the County Assessor's office, Hall of Records, Los Angeles) and divide by 100. Multiply this amount by \$6.5268. That's what local government costs you this year.

The entire city will kick in with approximately \$320,000 for all local taxes. This amounts to approximately \$50 per person.

All rates but that of the county were decreased. On the whole these decreases, including the city resulted from not by reduced budgets but a general increase in assessed valuation.

The county tax rate jumped from \$1.4937 last year to \$1.7578 for the fiscal year 1948-49, an increase of 26.41 cents. On the basis of a \$189,000,000 county budget, the rate was to have been \$1.8208—an increase of 32.71 cents.

But four supervisors took one look at the result of the county auditor's arithmetic (which could not be disputed) and got political trembles.

Supervisor Roger W. Jessup (Fifth district, including Pasadena and San Fernando Valley) didn't say so, but fresh in his mind was a successful recall movement against Glendale's city councilmen.

Supervisor Raymond V. Darby (Fourth district, including Santa Monica and Inglewood) didn't say so, but he figured that high tax rates wouldn't help his chances to run for U. S. Senator in 1950.

Supervisor William A. Smith (First district, including Sierra Madre) declared that the budget was "an honest budget honestly arrived at."

He pointed out that it represented ten months of hard work and included projects demanded by the people. He charged "politics" when the other two balked at adopting the necessary tax rate although the deadline under the law was a billboard before their eyes—one day away.

Supervisor Leonard J. Roach (Second district), who had been vacationing in Europe after attending the Olympic Games at London, had returned to New York.

Supervisor John Anson Ford (Third district, including Hollywood) was vacationing in Boston.

The two vacationing supervisors were hurriedly recalled.

Turn to page five

September
C. C. Lunch
Wednesday

The Chamber of Commerce plans a second Business Luncheon September 15 and will launch its program for closer co-operation with the business people of the city.

The discussion of ways and means of developing and accomplishing ideas proposed at the August meeting will carry on. The Chamber desires that all business people attend the monthly luncheons.

Bus service to Arcadia and Monrovia; bus service instead of rail service to Pasadena and San Marino; clean up the town; better facilities for reaching the shopping district—these are topics of interest to all business people.

Make your reservation by calling CUster 5-1104 after 1 in the afternoon.

MAJORS IN SOCIAL SERVICE

Joan Maltby, daughter of Mr. and Mrs. C. Lauren Maltby, 120 Lowell, left Tuesday morning for Berkeley to enter the University of California. This is her junior year and she is majoring in social service.

National Youth Month Observed by CYO Next Sunday

Catholic Youth Organization groups and clubs of the Los Angeles archdiocese will participate in the Catholic observance of National Youth Month on Sunday, September 12, it was announced today by the Rev. Richard F. Cotter, Los Angeles director of the CYO, a Community Chest agency.

In a special broadcast from Rome, Italy, the Holy Father, Pope Pius XII, will speak to the youth of the world at 9:30 a. m., P.S.T. The occasion of the Pope's address will be a convention of Catholic youth leaders from every nation.

FATHER'S DEATH IN N. Y. SHOCK TO MRS. QUITNER

Mrs. Joseph Quitner of Ramona received a wire last Wednesday of the sudden death of her father, Charles Glucksman of New York.

Mr. Glucksman had made many acquaintances in Sierra Madre during his visits with his daughter.

Pasadena Town and Country School Opens

Dr. and Mrs. A. Glenwood Walker announce the opening of the Pasadena Town & Country School at 200 South Sierra Madre Blvd., Pasadena. This year the kindergarten children are of ages 4 to 6.

The beautiful site of the school is almost a city acre in size, completely walled for privacy and safety. Dr. and Mrs. Walker have an excellent background for the direction of this enterprise.

EVANSTON FAMILY CHOOSSES HOME HERE

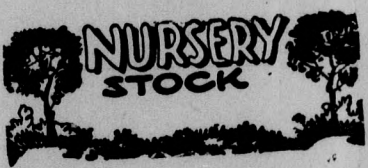

Mr. and Mrs. Richard S. Dawson of Evanston, Ill., have purchased the property at 245 Manzanita and will make Sierra Madre their home. Mr. Dawson is with the Henry Valne Company in Los Angeles.

They have four children, Deborah, 2; Roger, 8, who will attend the local school; Jack, 17, entering Pasadena City College and Richard, Jr., 19, majoring in journalism at Antioch College.

Former Businessman Turns Old Tunnels Into Mushroom Farms

Local people have been much interested in the adventure project of a former Sierra Madrean at Mercer, California.

Many thought C. C. Kellogg was making a bad deal when he bought sixteen miles of right-of-way of the old abandoned Yosemite Valley Railroad.

Now, however, Kellogg heads a new company called the Mushroom Tunnel Farms.

The sixteen miles of railroad he bought included four concrete tunnels. Kellogg converted the tunnels to house mushrooms.

The tunnels are twenty-four feet high and the temperature inside varies between fifty-eight and sixty degrees, which is ideal for growing mushrooms. Trays of mushrooms are set along the tunnel floor, and eventually other trays will be built bunk-fashion toward the ceiling.

Underground water seepage keeps the humidity at the proper level, Kellogg said.

Mr. Kellogg is a member of the Sierra Madre Masonic Lodge.

Here For Month

Mrs. Paula Ash of San Francisco, is a house guest for a month at the home of her brother and sister-in-law, Mr. and Mrs. John Froehlich, 115 E. Sierra Madre Blvd.

Picking Peaches Intrigues English Summer Guest

Roy Chatwood of Haslingdon, Lancashire, England, has been a guest at the home of Mr. and Mrs. Albert T. Barlow, 361 East Sierra Madre Blvd., for the past three months. Lancashire is where Mr. Barlow originally made his home.

Roy, age 17, thinks America is "wonderful" and was completely overcome by being able to pick peaches "with his own hands" growing on trees belonging to neighbors. Peaches sell for fifty cents each in England.

He plans to return home in two months.

FORMER S. M. RESTAURATEUR PASSES AWAY

Funeral services were held in Monrovia Saturday morning for Adam Hauck, former Sierra Madrean. A stroke caused his death Thursday morning at his Arcadia home.

Born in Germany, he first came to Sierra Madre in 1924 and owned a restaurant (now Henry's) until 1930. For the following seven years he worked for Anita Baldwin at her ranch. He later returned to Sierra Madre and bought the Wistaria Grill (now Club Sixty) which he owned until 1941.

Besides a wife and two children in Arcadia, Mr. Hauck is survived by his first wife, Mrs. E. M. Hauck, and son, Richard, of this city.

Noel Rites Friday

Private funeral services were held Friday at Forest Lawn for Pte. Herbert E. Noel, who lost his life with the armed forces in Europe. Interment was in the Mausoleum.

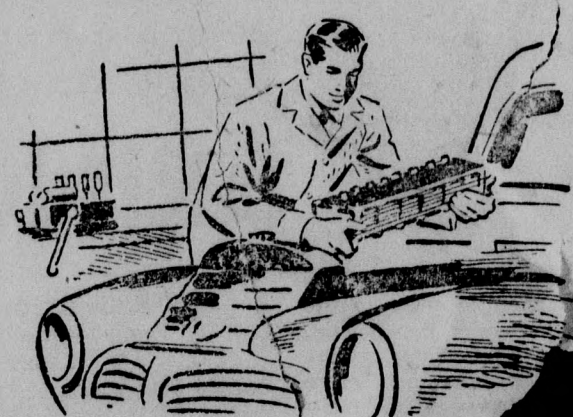

Surviving are his wife, Mrs. Gloria Noel, and daughter of West Grandview.

P.T.A. MEMBERSHIP DRIVE ANNOUNCED

The Parent-Teachers Association of Sierra Madre will start the annual membership drive shortly after school starts. As in previous years there will be classroom contests with prizes.

Don't smoke in forest areas.

Co-Stars With Mother

Although she is only seven weeks old, Candice Briskin acts like a veteran as she poses for her first picture with her movie star mother, Betty Hutton. Miss Hutton is the wife of Ted Briskin, camera manufacturer. They have another daughter, Lindsay Diane, 20 months.

FIRE FLAMES

It would seem that last week's FIRE FLAMES had reminded some youngsters that there was danger in matches. And as was stated in that article, matches MUST be kept away from children. The fire call of last Friday afternoon was to extinguish a fire that was definitely proven to have been set by matches strewn among dry grass. Not exactly a dangerous fire within the immediate area, but a fire that could have been terrible had it occurred without notice during the dark hours of night. It is worth relating that any fire can be dangerous. In a small city comparable to our own, a small child took matches from the family match-box that was conveniently attached to the wall. He lit a few to hold in his fingers. Unfortunately, he was not burned. If he had been, slightly burned, he would have probably stopped lighting them. As he lit the matches, he strolled toward the garage. Each one to him was just a little more thrill than the other. He enjoyed the actions of the flame. Entering the garage, he noticed a small can of gasoline in the corner of the work bench. He could reach it. He had seen his father light gasoline to hurry the burning of trash. What a thrill it was to see the sudden burst of flames! He thought he would try it. He knew there would be objection and the door of the garage was wide open. He closed it so that no one could see him pour a little of the gasoline on the cement floor that he was certain would not burn. He did not realize that when he would light the gasoline it would cause a flame large enough to reach the bottom of mother's car and ignite the oil and gasoline that had gathered about the engine. BUT IT DID! Before he could throw the match to the floor, the garage was filled with smoke and flame.

A good neighbor discovered the black smoke coming from the garage and called the fire department. Fortunately, the fire fighters responded in record time. The boy was found on the floor of the garage, and badly burned. His life was saved, but he will always be reminded of his experience by the scars of fire that have been left. The entire community was also fortunate that the fire was discovered before reaching other houses.

In large cities where fire fighters meet with much difficulty in reaching a fire, blaze will reach a high proportion before arrival. If the fire has been prevented from spreading to other buildings, the job has been considered pretty well done. It is the sincere desire of the local fire fighters that the fire be reached before much damage can be done to house of the origin.

That is why the men have voted to each spend a night at the station each month. The advantage of a driver being at hand when an alarm arrives is strongly realized. At a business meeting, the fire boys discussed the matter and after pro and con, voted in favor of the night duty. What the majority votes for in the Fire Department, is what is done. It makes no difference as to whether, you like it or not. If the vote says DO, well the fellows just DO.

It's not a matter of force or subjection. It's always been a matter of true sportsmanship among the fire fighters. Friday evening's drill took the crews to the upper part of the Sierra Madre Canyon. Much study was given to the intricacies and difficulties to be met there in case of a fire. Being just a little different than an ordinary city street, some of the houses will have to be reached by carrying firehose for long distances by manpower rather than laying it with the fire truck as is customary. Such matters were discussed to decide the greatest advantage.

And after the drill, the meeting was detained by another fire call. This time another resident was careless enough to fall to make certain that the pile of trim and rubbish that he had been burning was completely extinguished. In repetition, let us say that if you permit the slightest amount of heat in packed pile of ashes containing materials inflammable, it will eventually "take off" and there is absolutely NO MISTAKE about it. We urgently beg of folks to be very careful

Coming Picnic

Saturday, September 11, Nebraskans will hold their picnic in Sycamore Grove. Ninety-one counties were represented at the last picnic and as many as 100 from some counties.

McIvor Team High at Santa Anita Rifle Club Contest

The Santa Anita Rifle Club team contest Friday night with 22 Caliber rifles resulted in the McIvor team scoring a 567 shot and the Coutant team shooting in second place, 511. High scores were made by Muench, Sr. and P. Kelley of 89 and second high by Lukas and Fish of 88. Among the visitors competing were Lee, Holm, Gilmore and Bailey.

about this matter. We are entering the season of year when a gale may arise at any time. A simmering fire in a gale is just about as hazardous as dynamite with a fuse attached under the bed. Let's keep the FIRES OUT.

THURSDAY, SEPTEMBER 9, 1948 SIERRA MADRE NEWS -3

Two Months In Iowa

Mrs. Marie E. Mason and children, Lula Mae Sue and George Frederic, 662 Brookside Lane, returned Sunday from a two month's visit with Mr. and Mrs. C. M. Cleveland in Sac City, Iowa.

Vacations At Two Resorts

Mrs. Ralph Welch, 590 West Sierra Madre Blvd., is taking a two weeks' vacation at Catalina and Crestline. She is accompanied by Mrs. Flo Ross of Beverly Hills.

Fall School Registration Increases

There are over sixty new kindergarten through sixth grade enrollees with a possible 100 per cent increase expected before the local Grammar School opens, September 13. Although official registration dates are past, fall late comers may register after school opens.

Don't forget—traffic laws apply to pedestrians, too.

MASONS OBSERVE CONSTITUTION DAY

At the meeting Tuesday evening, Sierra Madre Lodge, 408, F. & A. M., observed Constitution Day with appropriate ceremony, celebrating the 161st anniversary of the endowment of this nation's statehood.

Week End At Welchs'

Week end guests at the home of Mr. and Mrs. Ralph "Pappy" Welch, 590 West Sierra Madre Blvd., were Mrs. Welch's sister, Mrs. Florence Floy Dollarhide of San Marino, Mrs. Lloyd Warner of Burbank and Mrs. Marjorie Linhart of Inglewood.

Rasbachs' Daughter To Marry in October

The engagement and plans for an early October wedding have been announced by Miss Charlene Rasbach, daughter of the noted composer and wife, Mr. and Mrs. Oscar Rasbach of San Marino, and Jacques Wellington Rupp of Seattle, Wash.

The Rasbachs, former Sierra Madreans, have many friends here.

Vows will be recited at 8 p.m. October 3, in the Church of Our Savior, San Gabriel. The couple will make their home in Seattle.

Registration Open For Pasadena Art Fair Held on Plaza

Final registration for the Pasadena Art Fair, scheduled for Friday and Saturday, September 24 and 25 in the Pasadena City Hall Plaza, will be held Tuesday, September 7 through Saturday, September 11 at the studio of Artist Paul Coze, 61 East Colorado Street.

Those unable to go to the studio may register by mail or by calling Mrs. Sally M. Wilkerson, registration chairman, SY. 9-3855.

It will be the case of first come, first served at the Art Fair and exhibitors, who want to be assured of a location are urged to register without delay.

Laguna This Week

Mrs. R. R. Hartman with the Rudy Hartman Jrs. and daughter, are vacationing at Laguna Beach this week.

ELECT
Bruce V. REAGAN
ASSEMBLYMAN
48th District

Appointment Urged for R. M. Jones

Over the last week-end a movement to request the City Council to appoint Ralph M. Jones to the vacancy on that body created by the resignation of Donald H. Jackson was begun and as the News goes to press appears to be gathering momentum.

Mr. Jones is a Certified Public Accountant and in addition to that profession has had a great deal of business experience in other fields. He is the owner of citrus acreage on Orange Grove Ave. and at present is engaged in the construction of two houses on a portion of this acreage formerly owned by him and recently subdivided by Donald Kelley of this city. Mr. Jones has lived in Sierra Madre with his wife and son since 1940. While he has not been active in civic affairs, Mrs. Jones has. She has participated in the activities of the Red Cross, blood bank, Garden Club and other organizations.

Mr. Jones attended the 1946 session of the Stanford Workshop on Community Leadership and was invited to attend again in 1948. He feels it a civic duty to serve as councilman if appointed and it is the belief of his sponsors that he can bring to the Council an unbiased, unprejudiced and considered judgment which is badly needed when, as now, the city is confronted with such a variety of controversial issues.

Among his sponsors are:
R. A. Hawks
R. C. Lewis
Martha Caroline Pritchard
Edward L. N. Voorhees
Harold F. Roberts
E. Eugene Lunsford
Thomas W. Neale
W. S. Hull
Noren Eaton

LUNCHEON PRECEDES VACATION

Mrs. George A. Dudley, 1150 Fallen Leaf Road, entertained fourteen members of her book review club at a luncheon Wednesday.

Mr. and Mrs. Dudley leave Sunday for Chicago. They plan to be gone till late October and will drive home a new car from Detroit.

DO YOU KNOW WHAT THESE SYMBOLS STAND FOR?

In ancient religion the horse was sacred to the sun and a symbol of knowledge and intellect. Some of this reverence survives in the familiar horseshoe as an emblem of good luck.

Another familiar emblem is the blue and white Rexall sign. Displayed by about 10,000 independent drug stores, it stands for pure drugs—skillfully compounded. It stands for the right Rexall system of laboratory control. And for the utmost in pharmaceutical skill.

Hartman's
The Rexall Pharmacy
CUSTER 5-3311

BETTY McDANIEL WEDS GENE MOTT

MR. AND MRS. GENE MOTT leaving church following Saturday ceremony.

Miss Betty McDaniel and Gene W. Mott, were married at high noon Saturday at the First Methodist Church of Pasadena and are now honeymooning in Santa Barbara.

The bride, daughter of Mr. and Mrs. Clarence C. McDaniel, 187 North Adams, chose a forest green suit with cocoa brown accessories and carried a bouquet of gardenias, daisies and carnations. The groom is the son of Mrs. Adele W. Mott of Pasadena.

Attending the couple were Mr. and Mrs. Paul McCullough of Pasadena. Mrs. McCullough wore a grey ballerina suit, black accessories and carried white daisies.

The young couple are both Pasadena City College graduates where the bride was a member of Sorority Restrictive Club and the groom a member of Sequoia Restrictive Club. The groom served eighteen months with the Army Occupation Forces in Japan. They plan to live in Arcadia.

POLICE BLOTTER

Barking dogs, "Howling" dog, (Did it belong to the Howell's?) Wire down. . . Lost license plate. . . A loud outdoor radio. . . Missing person, found. . . Evidence of a burglary was being traced and was reported as having been the work of the son of the owner. The son had forgotten to pocket his key. It would be better to report such incidents to the police station. It would be tragic to hear that an officer shot someone entering his own home through a window. . . Boys with powerful air pistols are stopped from shooting at street lights. . . A "man down" was the result of a combination of too much red wine and hot sun. A doctor was needed. Such a combination is very bad for the constitution. . . An eleven-year-old boy destined for Sierra Madre is stranded in El Monte. The cops there fed him well. . . "Foul odors and dead animals!" (Cheez, either one would be bad enough.) . . . Dogs again. . . Burning out of hours in the district of the Canyon brings the wrath of the neighborhood to a boiling point. Sierra Madreans don't like that. . . Hoping that the "ice cream man" would drop a popsicle or sumpin' two little children followed him far from home. They were found O.K. by Embree and Rhodes. . . Reported as musical instruments makin' too much noise is not saying too much in favor of the musician's ability. It does happen thataway at times. . . A dog that runs at people is considered a bad dog and the owner should do something about it before something happens. . . Cars running the Stop Signs when the police car is in other regions is reported by the folks who see it.

A driver should remember that his reputation as a driver is built upon how he drives, not by how many times he escapes a ticket. . . Boys playing football in the street. (That's not freshly mowed grass, boys, and a cauliflower ear is not an object of beauty.) . . . Boys shooting at birds. . . A sick cat. . . Doctor and copper investigate the possibility of a sick person in house. After calling the doctor a lady left the house as she could not wait longer. Doc feared for the lady's health and called the police for assistance to enter. Everything came out all right. . . An injured dog fortunately narrowly escaped death from the wheels of a car, only to receive blows from a man's cane. The man thought it was merciful. He meant well. . . "Family trouble." . . Parting couple. . . Another lady locked out of house. . . Kids going to bed, turned the radio up plenty loud. Awakened everybody else. . . Woman bothering her neighbors. Won't stay away from 'em. . . An auto is the recipient of abuse by vandals. A childish trick perhaps done by someone of childish maturity. . . New house unoccupied. Wants it watched. . . Unwanted man removed from premises by the officers of the law. . . Open door found in business district. Owner could not remember whether he closed it or not. Cops watch all night. . . Loud party and a barking dog. The dog enjoyed the party. . . A "T.C." Thank everything, we don't have a lot of "traffic accidents." . . Purse found and returned. . . The police were stationed at all outlets of the town theater when voices sounded through the walls from the inside. Ah! at last, the vandals will be caught in the act. When the signal for raid was given, all were surprised to learn that the children were all children of the caretaker.

City Dump Crisis

—From page one

County Air Pollution District. Last fall the supervisors declared, and rightly so, that Los Angeles county smog constituted a nuisance of emergency proportions. The Smog District was formed. Dr. Louis C. McCabe, a qualified engineer and smoke expert, was hired as its director.

When he came in, the pressure, politically, was on industry and burning dumps—principally dumps of the variety that smoldered 24 hours a day.

The Board of Supervisors started on the obvious—the dumps. Supervisor William A. Smith dissented, however.

Dr. McCabe took a logical stand. He said that research was necessary to find out what smog is and where it comes from, a time consuming and technically laborious job.

Politically conscious, the supervisors, with the exception of Smith, took after something to placate a public that was sick of smog and doubletalk. They said: Get the dumps. All of 'em.

"We're just throwing up a smokescreen to cover up industries that produce as much smoke individually as all the dumps combined," Smith said.

He declared that he would go along on the dumps when the board took action to "close up some of the factories" that do not comply with smog abatement regulations.

The other members of the board voted: Close the dumps. And so the people thought they were beating the smog.

The order went to the district attorney and then again to Dr. McCabe when he took office in October last year. The most flagrant violators were closed down. Because of the way they operated, most of them smelly, smoking, rat-ridden holes that could not be controlled, they were easily closed under smog laws.

Then the pinch came to the municipal dumps that had been properly operated, including Sierra Madre's.

The district attorney's office got a two-way order—from the supervisors and smog control. Deputy District Attorney Fred N. Whichello was assigned this smog problem. His word, in the help of the court which was given statutes to enforce by the State Legislature, was the law.

Among other valley cities, Sierra Madre was served with a court order to show cause why a temporary restraining order against the operation of the

city dump should not be made permanent. Violation would have been in contempt of court. The dump was closed.

It remained closed through stipulation entered into by Whichello and City Attorney T. R. Reynolds. The court matter went off calendar.

The court was never allowed to decide the equity of the matter. That Sierra Madre burned only from two to eight hours a month. That no smoldering was allowed. That clearance was obtained from fire and weather experts before burning. That atmospheric conditions were favorable for burning each time. That the smoke went up and over the mountain. That cut and cover was not suitable. That cost of disposing with private firms was prohibitive. That the Sierra Madre dump did not contribute to the smog.

Supervisor Smith said that the practical limit for hauling rubbish to a dump or incinerator is seven miles. The city now hauls it 14 miles because no other means of disposal is available.

Recognizing the difficulties, Dr. McCabe has given Sierra Madre permission to stack rubbish at the city dump for 10 days until some solution is worked out. But this cannot be done immediately, because clearance on the existing court order is not definite.

Both Supervisor Smith and Smog Director McCabe have told the News that the dump here may be allowed to reopen. Negotiations toward this end, however, have not been started.

Although Sierra Madre and other cities of the area have hoped that the county supervisors would institute a program for building incinerators that would pay for themselves as the final means of beating the rubbish disposal problem at low cost, this is now out of the picture.

The county had started the program and included money for at least one incinerator in its budget this year, but the supervisors, over the vigorous objections of Supervisor Smith (see tax rate story in this issue), kicked it out by freezing it in the budget.

The incinerator cut-back in the county budget represents less than 2 cents per \$100 assessed valuation on the tax rate.

An additional cost of \$12,000 for rubbish disposal in Sierra Madre represents 24 cents on the tax rate.

to their duties so that the budget could be juggled and the tax rate set despite the objections of Supervisor Smith. They managed it by "freezing" certain items in the budget and placing a couple of projects on a bond issue.

They did it over the objections also of the county counsel's office which warned that their actions might be subject to court action. Supervisor Smith said he himself would bring a taxpayer's suit if possible.

"The law does not contemplate that you will ascertain the tax levy first and then work back and fix the county budget," Deputy County Counsel Curtis Smith said. His boss, County Counsel Harold K. Kennedy, said that the entire tax levy was placed in jeopardy.

But the rate increase was whittled back by six and a half cents.

The other four taxing agencies which appear for a cut of revenue on your tax bill reduced their rates a total of 10.96 cents.

The total rate for schools was set by the supervisors at \$2.4698. This is a decrease of 3.85 cents. Last year the total was \$2.5083.

The elementary general rate of 90 cents per \$100 assessed valuation remained the same. The rate for elementary bonds went down from 25.19 cents to 17.16 cents. Total \$1.0716.

The Pasadena High School District, paid by all of Sierra Madre, boosted its general rate from 48.32 cents per \$100 last year to 57.74 cents. Bonds of this district dropped from 12.72 cents to 10.53 cents. Total: \$.683.

The Pasadena Junior College District general rate dropped. It went from 70.86 cents last

Van Hiesel Vacation

Mr. and Mrs. Louis M. Van Hiesel, Sr., 134 East Montecito, returned Tuesday from a week's vacation in San Francisco.

year to 67.26 cents for 1948-49. The district's bonds increased from 3.74 cents to 4.12 cents. Total: \$.7138.

All of these go to make up the total school tax rate. In addition, an item called "School Service" was tacked on by the last session of the state legislature to cover added expense of schooling handicapped children. It amounts to .14 cents. It is included in the total school rate.

The city rate was set three weeks ago by the city council at \$1.83 per \$100 assessed valuation. Last year it was \$1.85.

The other rates which make up the Sierra Madre tax rate are County Flood Control District, 19.45 cents, down .3 cents; and Sanitation District No. 15, 27.47 cents, down .48 cents.

A breakdown of the Sanitation District levy showed that 15.38 cents of the total was for bonds and 12.09 cents for maintenance.

Cut Water Use

From page one
designated by the court.

The watermaster's report, just received by Brod and Councilman Herman Barter, indicated that Sierra Madre overdraw this amount by 30 per cent during the last fiscal year.

During a single year a city is allowed to overdraw 20 per cent, but this must be made up the following year and within a five year period covered by agreement, Brod explained.

Sierra Madre is now in the final year of the five year period—at the end of which something must be done about overdrafts.

In entering this final year, Brod pointed out that the city is overdrawn 622.67 acre feet—about 50 per cent of its annual water right.

This means that to clear the books Sierra Madre should cut its water consumption by 50 per cent.

The city obviously can't, but Brod made an appeal, in a written statement to the NEWS, to every resident to CUT BACK WATER USE and ELIMINATE WATER WASTE.

What will happen when an accounting is made at the end of the current fiscal year is not certain, but it was pointed out that it might cost the city a heavy fine and it might result in less water from the Raymond Basin for Sierra Madre next year.

Brod said that the city is now negotiating for acquisition of new water supplies.

In the meantime, he asked that voluntary conservation methods be used. On completion of a review by the watermaster water use limitations may be "enforced by law according to the watermaster's appraisal of the gravity of the situation," he said.

In the interests of the community, he asked that water users conform with the following provisions:

- 1.—Do not use water for the wetting of open ground.
- 2.—Do not wash walks, courts, driveways or hard-surfaced areas.
- 3.—Do not wash autos or other vehicles with hose. Use a container such as a pail.
- 4.—Do not use water in ornamental or other types of fountains or pools.
- 5.—Check all faucets, valves and other parts of plumbing system for leaks and repair same at once.
- 6.—Do not water annual plants.
- 7.—Do not water trees or plants by hose. Use a pail or other container. If watering is done by hose, the hose should be held while watering.
- 8.—In watering lawns, the hose should be held in hand; never lay it down. Where automatic sprinklers are installed, the system should never be left unattended while water is on.
- 9.—Use the minimum quantity of water possible.
- 10.—Promptly report evidence of water waste to the Water Superintendent.

"Experience in other communities has shown that water conservation by the people is very effective," Brod said.

"Let us hope it will not be necessary to use police enforcement or restrictive measures in Sierra Madre."

Celebrates Birthday

Theresa Varela, daughter of Mrs. Katherine Varela, 136 West Highland, celebrated her fourteenth birthday last week by entertaining schoolmates and members of Girl Scout Troop 8.

Wetherbee Houseguest

Mrs. Marie Benjamin of San Francisco was a holiday guest at the home of her sister and brother-in-law, Mr. and Mrs. Al Wetherbee, 215 East Montecito. The trio visited other members of the family at Newport Beach.

Activities At Woodbury House

Val Woodbury, 119 West Grandview, returned Friday from a week's camping in the High Sierras. A recent guest at the Woodbury home was their son-in-law, George Zillgitt of Palo Alto.

Lady Chapel Scene of Walance-Newton Nuptials Ceremony Thursday Evening

MRS. CHARLES GEORGE WALANCE

Softly played organ music in the Church of the Ascension furnished background for the nuptial vows of Miss Mildred Newton, daughter of Mr. and Mrs. Ernest A. Newton of 217 South Baldwin Ave. and Charles George Walance, son of Mr. and Mrs. Seymour G. Walance of Chicago, Thursday evening, September 2nd. The Rev. Softly of Los Angeles performed the ceremony before the Altar in Lady Chapel in the presence of the immediate family.

The bride, attired in a magnolia gabardine suit with brown accessories and corsage of lily-of-the valley, was given in marriage by her father, Miss Betty Newton attended her sister and Gordon Whiting of Culver City served the bridegroom. The newlyweds were congratulated by relatives and friends at a reception in the home of the bride's parents.

The house was decorated with baskets of white gladioli, dahlias and larkspur. The buffet table set with white tapers and crystal provided setting for the wedding cake cut by Zayda Leonard. The hostesses were Mesdames George Fitzpatrick, John Simmons, Pete Fanucci, Don Wells, Norman McDonald and Miss Betty Barnett. Elizabeth Steinberger presided over the guest book.

The former Miss Newton, a resident of Sierra Madre since early childhood is the Children's Librarian at the La Pinetresca Branch Library in Pasadena and attended UCLA and Riverside Library School.

Mr. Walance served overseas in the India-Burma theatre and

is a member of the senior class at California Institute of Technology. After a trip through Northern California the couple will reside in Pasadena.

By MAXINE BALLING

DO YOU KNOW WHAT? There are so many girls of "pre-teen" age who have a difficult time getting clothes to look right on their in-between figures, that we've set up a special "pre-teen" section for them here at the Balling Baby Shop. You know, they're growing taller fast; they don't want to look like "little girls"; and mothers hate to have them looking like WOMEN at such a tender age. And during the pre-school-opening period, this pre-teen section is just about the busiest little place in Monrovia.

TAKE DRESSES FOR INSTANCE. Our sizes 10 to 14 are styles that both Mother and the pre-teen age can agree upon. The materials also are carefully picked to suit the girl of in-between-eighth-grade-and-high-school taste. Even the prices \$7.95 to 10.95, are "in-between" . . . not too high, not too low.

SAME WITH BLOUSES in our pre-teen section. There are tailored styles, dressier styles and Gibson Girl numbers, in cottons and rayons, sizes 10 to 16, for 2.95 to 5.95. And so on, including sweaters, socks and underwear.

FUNNY THING about the pre-teen section is that there are a lot of WOMEN with cute little figures who find the pre-teen section a convenient place to find a lot of things THEY want.

SCHOOL GIRLS wearing dresses in the smaller sizes, 7 to 12, like the new "Handee" and "Margaret O'Brien" prints and plaids for fall. They're 3.95 to 7.95. And speaking of money, many mothers are using our lay-away service for the purchasing of school clothes. Ask us about it.

COOLER NIGHTS make it sort of nice to feel flannel nighties against the skin, and here's the dope on the flannel PJ situation. Blue and white, or pink and white striped PJs, with elastic drop seat, sizes 4 to 8, are \$1.95. Solid pink or blue, button-on pants with feet and button down the back PJs, sizes 1 to 4, are 1.95. "Self-help" flannel sleepers with the belt that handles the drop seat by remote control, pink or blue, 1-4, are 1.75. Heavier flannels in a cute lamb pattern are 2.50 in either the button-on pants or tie-around style, sizes 1 to 4. Flannel nightgowns for the girls size 6 to 14 with neat flared patterns and ruffle trim, are 2.95.

BINGO BED is NOT a game you play in the boudoir. It is one of the famous Holgate educational toys. It's shaped like a bed, and has several pegs which little Sampson Jr. snacks with a wooden hammer, teaching him to hit straight. Good idea for a \$2 Christmas present. Christmas toys are coming in now, and you might like to be an early bird and have us lay some away with a small deposit. BALLING BABY SHOP, is at 401 1/2 So. Myrtle Avenue, Monrovia 20411.

NAVAL RESERVE VOYAGE

Neal Fergus, son of Mr. and Mrs. John Fergus, 154 West Sierra Madre Blvd., left Sunday morning with the Naval Reserve on a two-week cruise through the Caribbean.

Canyon Guests

Mr. and Mrs. Joe Pilson of Los Angeles, were weekend guests at the home of Mr. and Mrs. George Goldwater, 600 Woodland Drive.

San Diego Stay

Dr. and Mrs. C. L. T. Herbert, 233 North Mountain Trail, spent the holiday with Mrs. Herbert's sister, Mrs. Jessie Hayden of San Diego.

From LaFayette

Mrs. A. B. Masters and daughter, Marilyn of LaFayette, Ind., are visiting Mrs. E. W. Buetler, 409 Ramona. They will return home Friday.

Bennions In Utah

Mr. and Mrs. Adam L. Bennion and four daughters, 617 Manzanita, left Friday for a week's vacation in Salt Lake and Provo, Utah.

McGarvin Guests

Mr. and Mrs. David Reginald Gustavson of Los Angeles were weekend guests at the home of Mr. and Mrs. Noel McGarvin, 800 Skyland Drive.

DON'T PASS THAT BUCK

Tuesday night, when the City Council meets, there will be held a so-called public hearing on the question of where to locate a National Guard Armory in Sierra Madre. The "so-called" label is attached because the hearing appears designed more to go through the legal motions, required before the city can enter into a lease with the government, than to sample opinion.

Perhaps this is misinterpreting the Council's motives. It may really be intended that the final decision come from the "public" rather than from the Council. The responsibility for parting with some of the city's precious recreation area is a burden anyone would be glad to transfer to another's shoulders. But the point we want to make here is that ultimately the responsibility lies with the Council, and with no one else.

No public hearing is going to shift that responsibility. The theory of representative government is that public officials are elected to make DECISIONS, not to count noses. Supposedly we chose the Council to steer the boat, not to lounge in the cabin with moist and tentative fingers thrust upward to gauge the direction of the wind.

This elementary civics lesson may be somewhat gratuitous. The Council may very well not require a lecture as to its duties. But all of us are prone to forget the obvious and it has seemed to us during the past few months, as attendance at Council meetings has gone from practically zero to standing room only, that misunderstanding has been accumulating.

For instance, much has been made by enthusiasts for the Armory of the fact that their petition supporting the park site had so many hundred more names on it than did the petition opposing the site. They seem to feel quite sincerely that the Council has thus received what amounts to a mandate from the people. The Council has not accepted this dubious interpretation, but why it is not valid has not, it seems to us, been properly explained. Mandates, it should be made clear, are formulated in the voting booths, and not by enthusiastic young men ringing doorbells.

And so, back to Tuesday night's "hearing." As a formality, okay. But at this very late date, it can hardly be more than that. There is now only one Armory site acceptable to the government. It is perfectly futile to speak any more about alternate sites. The Armory will be between the tennis courts and the Woman's Club, on Sierra Madre Blvd., or it will be in some other town. Is an Armory the best thing the town can put on the land, or is it worth more as park area? That is the only question to be answered, and the only people who can answer it are the councilmen we elected for such purposes.

Councilmen should be open to suggestion. Certainly. But their judgment must ultimately prevail. It is high time they made up their minds and settled the affair one way or the other. Their decision must not have anything to do with who makes the most noise on Tuesday night—or on any other night. If this is kept in mind by everybody concerned, we will avoid the hard feelings summed up in a comment frequently heard during the water controversy:

"Yeah, they ask the public to express opinions and then go ahead and do what they want to anyway. Is that democratic?"

Well, we wouldn't put it quite that way, but essentially—yes, that is democratic. We elect 'em; and theirs is the power, and the glory, and the brickbats.

LETTERS TO THE EDITOR

MARGARET MILLER DISCUSSES ARMORY

Many Sierra Madreans to whom I have talked do not object to an armory in Sierra Madre. We do object to an armory in the City Park.

The city has offered up to five acres of land near the Pumping Plant. The National Guard turned it down. Reason—too far from center of town. This doesn't make sense. It measures 8/10 of a mile from Baldwin and Sierra Madre Blvd. to that site. How much of Pasadena for instance, is 8/10 of a mile to its armory? Or from the new Naval Reserve building going up at Paloma and Sierra Madre Blvd.

Instead they demand less than one acre in the City Park. This in spite of the fact that they traditionally demand a minimum of two acres! With a building 100x120 feet what is left for marching ground and parking area? Only the City Park. The objection to this is obvious.

How an armory can be designed to look like anything but an armory is a bit difficult to imagine. We don't like the idea of a big barn located across from the new Library, next to the Woman's Clubhouse, the Congregational Church—in short, in the middle of town, when there is no logical objection to putting it near the Pumping Plant.

Nor would we like to have an ammunition dump in the Civic Center.

Those two lots next to the City Park are needed to enlarge Park recreational facilities. They were purchased for that purpose. The Adult Recreational Group such as the horseshoe and shuffleboard club have already made plans to use much needed additional space on those two lots. The Recreation Commission has planned to expand the program of the youngsters onto parts of these lots.

Now that the City Dump has had to be abandoned there is a move on foot to provide recreational facilities in that area for which the Park is too small, such as a hardball diamond, touch-football field, etc. This would meet the needs of the older boys and girls in the town, leaving the Park program for the younger. An armory with its recreational possibilities would fit in perfectly with such a program and we don't regard 8/10 of one mile as too far to go to a Community Center if that is what the armory would become. Think of all the parking space!

Why can't the National Guard be logical about this thing? Or at least give a sensible explanation of their action? They want two acres—we offer them up to five—then they'll settle for less than one! They demand public transportation; then de-

WILL SIERRA MADRE GET AN ARMORY?

Unofficial estimates on the trend of local opinion strongly indicates that a substantial majority of Sierra Madre citizens hope that an armory will be built in this community.

They want an armory for a number of reasons. Here are some of them:

An armory assures the continuance here of the local National Guard company with its supplemental organization, the National Guard Reserve unit, both of which are attracting a high type of younger and older men. The importance of both units to security of this area in the chaotic times which are looming up in the not too distant future is of the utmost concern to sober-minded Sierra Madreans.

The armory, which will cost approximately \$100,000 will be built without cost to Sierra Madre. If it is not erected here it will be erected somewhere else since local military units must be properly housed.

Such a building will be as much of a civic center as it will be an armory since all local groups will have an opportunity to use it except when it is used for military purposes. Guard units will use it about two evenings per week. This would make the building available for luncheons, dinner meetings, dances, games for young and old, morning and afternoon conferences of local citizens for two-thirds of the week.

Building of an armory here will assure the continuance of the National Guard unit with its payroll of more than \$30,000 a year at no cost to Sierra Madre.

The question which seems to be disturbing some of us is "Where should the armory be located?"

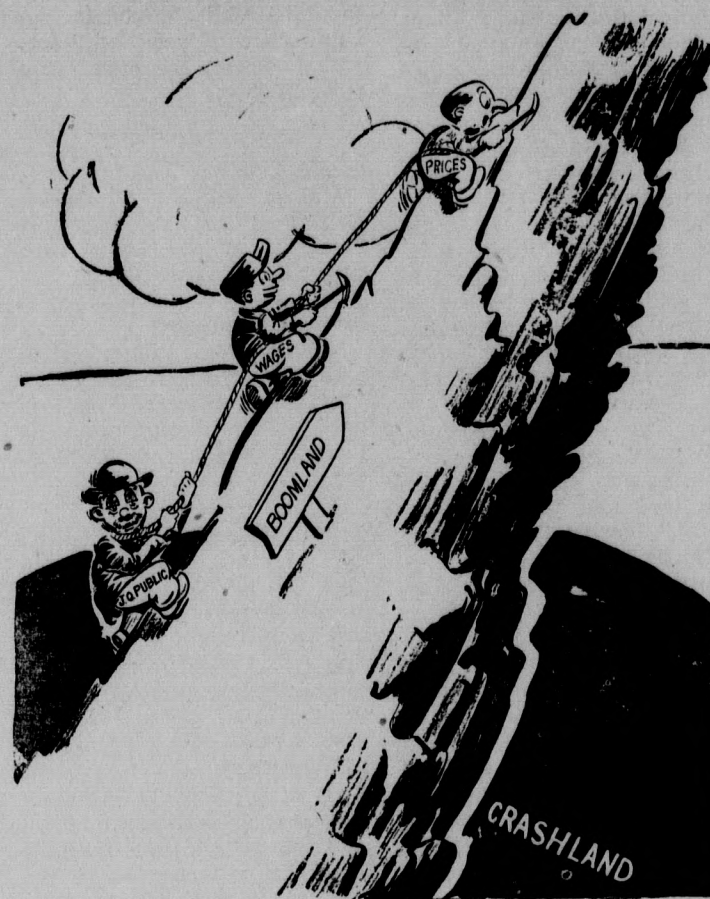

There are those who favor the city owned land near the pumping plant. This location has been rejected by National Guard inspecting officers because, in wet seasons, the terrain there would not be suitable for the use of military equipment. It is also pointed out that this site—which might be quite adaptable for a base ball diamond, foot ball field, etc.—would be found objectionable by parents of very young children or even older ones because of the difficulty of supervision.

Others favor the city owned property near the Woman's Clubhouse as a central point for civic affairs. In this they are supported by National Guard inspecting officers who have approved this site—subject to concurrence by the city council.

One objection to this site by those who want Sierra Madre to have an armory but prefer to have it somewhere else is that it would prevent the expansion of the City Park recreation facilities. Those who favor this site point out that it would provide an immediate expansion of recreation facilities—at no cost to the city—and would provide warmth and shelter for indoor recreation during a large part of the year.

Then there are a few of what apparently comprise a minority of opinion who do not want an armory in Sierra Madre—anywhere or at any price or at no price at all. Among these are some who oppose military preparedness in this country, obviously oblivious to the terrific price all of us may be called upon to pay unless—while "hoping for the best, we pre-

Let's Pretend That It's Fire Prevention Week

And that would mean the beginning of FIRE PREVENTION WEEK and it seems fitting to call attention of the people who will be visiting mountain areas of the great need for extra precautions against forest fires at this time. From now on until our next rains, conditions will continually become more hazardous.

To date there have been 35 fires in the Angeles National Forest which lies at our backdoor, with 25 acres burned over. Only ONE fire has been caused by lightning; the other 34 were man-caused and therefore PREVENTABLE. Thirteen of the 34 were due to smokers' CARELESSNESS. For comparison, at this time last year there had been 49 fires with over 3000 acres burned. The Tujunga fire accounting for nearly all the burned area.

This year's "record" so far is no doubt due in part to the coastal fogs and their moisture which have been blanketing our Southland communities during the past weeks. Also to the vigilance of suppression crews and their prompt actions. But a large amount of credit goes to the people themselves. The observance and exercising of fire rules and regulations by mountain visitors is showing results. Let's keep the good work UP and the record DOWN during this unusually dry, hazardous summer coupled with a critical water shortage.

Attention is also called to the fact that for the first time in 18 years the spring has gone dry at Chantry Flats. All picnickers who contemplate visiting that area must take their own water supply with them. However, the supply is adequate in the Santa Anita Canyon itself for people who hike into the Canyon. This is one manifestation of the water shortage which has long been threatening the recreational areas of the Angeles Forest.

Turning Sweets Into Weight Complicated at Least in Laboratory

Nothing seems easier than to eat a lot of sweets and gain weight, but the University of California College of Agriculture is in the midst of an extensive experiment proving that it really is a complicated procedure.

The conversion of sugar into fats in the body has long been a mystery to scientists but now Professor Barker has succeeded for the first time in extracting the change-producing substances—enzymes—from the living cells of certain bacterium. The bacteria convert ethyl alcohol and acetic acid, both derived from sugar, into fatty acids, and it does it in about 10 chemical steps. Six of these steps now have been separated and studied in detail, and the veil is slowly being lifted from the rest. As the chemical reaction is probably the same or very similar in bacteria and humans, the scientists believe that sound knowledge of how sugar is converted into fat may prove an important groundwork for subsequent biological and medical studies.

WILDLIFE RESTORATION HAS BOOST

California's 1,400,000 sportsmen who annually take out hunting and fishing licenses will soon feel the benefit of horse racing's contribution to wildlife restoration, according to figures released today by the California Horse Racing Board, which reported that more than half of the \$9,000,000 fund to be used for this purpose has already been raised through the pari-mutuel tax on racing.

Steady diminishing of fish and game during recent years in California, coupled with the fact that the number of sportsmen interested in fishing and hunting is rapidly increasing, brought about passage of an act last year directing the use of part of racing tax funds for wildlife restoration.

Pretty Lois Hannaford is a leading candidate for queen of the 40th annual Grape Day festival at Escondido, September 9 and 10. One of the many features of the celebration will be the "Cavalcade of California", with a cast of 250 persons.

SUMMER DESSERT

Dainty as an angel's wing are little meringue shells you can make easily at home and fill last minute before serving with scoops of ice cream. A make-in-the-morning, set-aside-'til-dinner scheme, meringue shells are made with egg whites (don't you often have some extra ones on hand?) and baked in the slowest of ovens for just about the time it takes you to do your first round of morning tasks.

Ice Cream—A Simple Filling

At eve, you'll fill those dainty meringue shells with ice cream. While vanilla ice cream will give you a snowy cool-looking dessert in your meringue shells, you might also occasionally try some of the delicate pastel tinted ice cream like strawberry to fill these shells. They're as pretty a picture as ever greeted a weary home-comer on a hot day, and they're so easy to serve.

Meringue Shells
3 egg whites.
¼ teaspoon salt.
¼ teaspoon cream of tartar.
¼ cup of sugar.

Beat egg whites until foamy. Add salt and cream of tartar; beat until eggs are stiff but not dry. Add the sugar, 2 table-spoonfuls at a time, and continue beating until very stiff. Cover baking sheet with heavy brown paper. Pile meringue in to 6 rounds about 3 inches in diameter. Make a 2 inch depression in center. Bake in a very slow oven (275°F.) 1 hour. When cool, remove from paper. Fill with your favorite flavored ice cream. Yield: 6 servings.

Breaks Hip In Street Fall
Mrs. Stanley Wheeler, 382 W. Sierra Madre Blvd., is well on the mend at General Hospital, with a broken left hip, following a fall on Lima and Sierra Madre Blvd. a week ago Monday.

Drive Carefully, Save A Life!
Better be late —than never.

Fringe on Top

Taking her cue from the stage play, "Oklahoma," little 18-month-old Carol Sue Severens of Harrington, N. J., went in a "surrey with the fringe on top" to the annual Ocean City, N. J., baby parade. With her pet pup in the harness, Carol Sue rode off with the parade's "Champion Baby" title.

P.C.C. Offers Course In Group Leadership In Evening Classes

Beginning on September 14 Pasadena City College offers as one of its Extended Evening Courses a class in group leadership. Included in the course are songs, games, and arts and crafts—related to various group needs and age levels. The class is designed to train

THURSDAY, SEPTEMBER 9, 1948

SIERRA MADRE NEWS—7

city recreation people as well as leaders of scout troops, church, and other youth groups to plan successful, interesting programs.

Under the instruction of Mrs. Elizabeth C. Faiman, the class will meet in room 141C on Tuesday evenings from 7:00 to 9:00 p. m. at the college.

For further information telephone SYcamore 3-5111.

Daughter Returns To England
Mrs. R. H. Scott and children, Brian and Jean left by plane for New York where they will board the Queen Mary and return to their home in England.

Penney's

STURDY SCHOOL SHOES

KNOW NO EQUAL IN VALUE!

3.98

SIZES 12½-3.... 4.49

FROM TOP TO BOTTOM:
Brown scuffless-tip oxford built for the usual hard knocks a boy gives his shoes. These can take it — and how! 8½ to 12, B, C, D.

Girls' oxford in army russet for classroom or party wear. A typical Penney-quality shoe for dollar-wise moms. Sizes 8½-12, B, C, D.

Boys' or girls' moccasin oxford that fits like a glove. Rubber soles and heels. All brown. Sizes 8½ to 12, B, C, D.

Not Shown! Another Penney value — girls' "T" strap sandal in patent 8½-12, B, C, D. 4.49

CBS Symphony Returns to Wagner Symphonic Work

Richard Wagner's only symphonic work, "Symphony in C Major," will probably receive its air premiere Sunday when Alfredo Antonini conducts.

Bach's "Prelude and Fugue in B Flat Minor," as arranged by Ralph Norman, is conducted by Mr. Norman when he makes his appearance of the season on the ABC Symphony podium, Saturday. This will be followed by Brahms' variations on a theme of Haydn and Wagner's "Siegfried Idyll."

THURSDAY, SEPTEMBER 9
(4:00-5:00 PM KFAC) Glazounov's "Concerto in A Minor" as interpreted by Jascha Heifetz, violinist. Also the Bach-Weiner "Toccata and Fugue in C Major," and German's "Welch Rhapsody," recorded.

FRIDAY, SEPTEMBER 10
(8:00-10:00 PM KFAC) Recorded music of Berlioz, Bizet, Mozart, Tchaikovsky, Gounod and Chabrier.

SATURDAY, SEPTEMBER 11
(12:30-1:30 PM KECA) ABC Symphony and Ralph Norman. (3:30-4:30 PM KFI) NBC Symphony.

(8:00-10:00 PM KFAC) Recorded "La Traviata" by Verdi.

SUNDAY, SEPTEMBER 12
(6:15-6:45 AM KNX) E. Power Biggs, organist, is assisted by Emil Kornsand, violinist, and Joseph Zimble, cellist, in fine program of Liszt, Weber works. (8:30-9:00 AM KNX) Salt Lake Tabernacle Choir sings the "Hallelujah" from Beethoven's "Mount of Olives." (11:00-11:30 AM KFI) First

Pasadena Community Dance Features Frankie Masters

Frankie Masters and his orchestra including seventeen top-flight musicians and entertainers will be the place de resistance at the Pasadena Community Dance, Friday and Saturday nights. The band features its director as a vocalist and composer; Tommy Treanor and the Swingmasters.

Although he intended to become a banker and put himself through a University of Indiana economics course by playing banjo at fraternity dances, Frankie Masters ultimately decided upon a musical career, formed a band that played at Chicago night spots for two years, then opened at New York's sophisticated Roosevelt Hotel, which began his rise to fame.

On the highway carelessness can kill.

Where to Go . . . ?

GLENDALE BEGONIA SHOW—September 11-12.
Delicate begonias will go on display in Glendale's Civic auditorium in show sponsored by Glendale Begonia Society. Varieties will include choice from area's gardens.

MISSION SAN FERNANDO REY ANNIVERSARY—Sept. 12.
Mission San Fernando is 151 years old. The celebration will be a Field Mass and a Spanish dinner served in the courtyard of the historic landmark, which served General Fremont as a headquarters in 1847 when he was on his way to Los Angeles for the battle with the Californians.

LOS ANGELES COUNTY ART INSTITUTE—September 13 - Jan. 22
This is an art exhibition which during the year includes a sample of virtually every form of art. Visitors may view exhibits of painting, sculpturing, ceramics, etc., from 9 a. m. to 5 p. m. at the Los Angeles County Art Institute in Los Angeles, to which 500 students from all over the world were attracted last year.

MEMORIAL FOR WOMEN PILOTS AT FOREST LAWN—Sept. 16.
Church of the Reformation in Forest Lawn Memorial Park at Glendale will be scene of solemn memorial rites for thirty-eight members of Women's Airforce Service Pilots who lost their lives in World War II. Uniformed WASPS will participate in program.

Doctor Goes North
Dr. George W. Groth Sr., 223 Santa Anita Court, is taking a two week vacation at San Francisco and Yosemite.

Jagged, brilliant streaks of lightning strike the top of New York's Empire State building, which acts as a gigantic lightning rod for buildings within a third of a mile radius. Picture was taken by a "lightning watcher" for G-E, whose engineers use the data gained from such shocks to improve electrical equipment.

'Axis Sally'

Mildred Elizabeth Gillars, 47, the "Axis Sally" of wartime Nazi radio, was brought to Washington from Frankfurt, Germany, to face possible treason charges. Born in Portland, Me., she attended Ohio Wesleyan University and at the time of her entrance at the school gave her hometown as Conneaut, O. She will face a federal grand jury investigation along with her Far Eastern counterpart, "Tokyo Rose."

Advertise in your home newspaper, it pays big dividends.

GIGANTIC HARDWARE SACRIFICE

THE FINEST IN HARDWARE . . . HOUSEWARE . . . TOOLS . . . PAINTS . . . GARDEN TOOLS . . . ETC. . . ETC. . . ETC.
ON SALE AT TERRIFIC PRICE REDUCTIONS

SANTA ANITA HARDWARE 24 NORTH FIRST AVENUE * * * ARCADIA

A SALE WITH A REASON!

The one and only reason for this Drastic Store-Wide Sale . . . is to accomplish a Complete Disposal of Our Entire Present Stock before moving to Our New, Modern Store, at South First Ave. It is our desire Not to Move Our Present Stock to our New Store, thereby enabling us to open this store with an Entire New Stock of The Finest Hardware and Its Kindred Lines . . . That the markets of the country produce.

After careful thought and serious deliberation and taking into consideration the great loss that must be incurred in Closing Out our present stock, we have decided that there is only one logical thing to do.

Place this Entire Stock on Sale to Our Friends, Customers and The Buying Public of Arcadia and Vicinity at Prices so Low That the Stock will Sell and Sell Quickly . . . Let the Loss Be What It Will.

BESIDES THESE GREAT SAVINGS SHOWN HERE PRICES SLASHED

- Builders' Hardware
- Plumbing Supplies—Pipes, Fittings, Etc.
- Electric Fixtures and Supplies

DOWN GO PRICES . . . OUT GOES THIS FINE MERCHANDISE . . . DURING THIS GREAT SALE EVENT!

Watch For Opening of Our New Store, South First Avenue On or About Oct. 1st.

OUR PURPOSE IS CLEAR—We Are Moving to South First Avenue . . . On or About October First . . . It Is Our Desire to Open This Store . . . With An Entire New Stock of Merchandise . . . Hence, This Complete Close Out of Our Present Stock . . . A Complete Sell Out Is Desirable . . . Regardless of the Loss . . . We Have But One Aim . . . That's to Sell Out to the Bare Walls . . . And We Assure You That No Loss Is Going to Stand in Our Way . . . This Sale Will Continue With a Determination to Sweep This Store Clear by October 1st.

ENTIRE STOCK MUST BE SOLD

This Entire Complete Stock of Hardware, Housewares, Etc. . . To Be Thrown on the Market and Sold Entirely Out . . . Before Moving to Our New Location . . . At Drastic Price Reductions . . . The Finest Hardware and Its Kindred Lines That Money Can Buy . . . To Be Sold and Sacrificed . . . At a Fraction of Its Value . . . We Do Not Want to Move This Stock to Our New Store . . . Contracted Lines Can Not Be Price Cut.

ALL PRICES SLASHED BUY-NOW! TERRIFIC REDUCTIONS AT COST! NEAR COST! BELOW COST! SAVE-NOW!

It's a Sacrifice in Real Deal Earnest to Turn All or Nearly All of This Stock Into Cash . . . And We Realize That It Will Take VERY DEEP PRICE SLASHING TO MOVE OUT THIS MERCHANDISE BEFORE OCTOBER FIRST . . . Buy With Every Dollar You Can Spare . . . The Savings Will Be Worth While.

Greatest Reductions Ever Offered

Not the Savings Listed Below . . . They Are Only a Few of the Great Savings That Will Prevail Throughout This Sale.
